

NH Point-in-Time Count Committee Minutes

Date and Time

Monday, November 10th 2011 10:00AM-11:00AM

Location

Harbor Homes, 45 High Street, Nashua, NH

Attendees

Kristina Riera	Pascale Etienne	Bob Mack
Kyle Beaulieu	Wendy LeBlanc	Miles Pendry

General Comments

- Last year everyone moved from using paper surveys to electronic surveys. But there is still concern with having paper surveys available because the CoC PIT contacts have to make sure the person filling out the form answers everything.
- If someone wants agency specific data they can ask the agency themselves.

PIT/HIC Changes from HUD

- Need to align the HIC and the PIT.
- Now in HDX there will be an extra column in the HIC for number of households with only children.
- The data that is in the HIC needs to mirror what is in HMIS otherwise AHAR will not run through.
- We can only count overflow beds as part of the count when they are in use.
- The data collection committee of the GNCOC will not be counting waitlists as part of the PIT Count.

Reviewing Surveys & Data Sheets

- Tracey Noonan filled out the VASH vouchers for the PIT. All CoC's will have her fill out all the VASH vouchers.
- Miles brought up that there was an issue with the form in terms of duplication

Training/ Webinar

- MCoC will do a webinar again and archive it and update it with new information.
 - Everyone will drive people to the MCoC website
 - The Greater Nashua Continuum of Care (GNCOC) will put a link on their website. The Balance of State Continuum of Care (BoSCoC) will not be able to link to their website.

Minutes Prepared By

Pascale Etienne, VISTA
MCoC Coordinator
